

STAR VISTA

Helping All Ages and Stages Through Life's Challenges

CAMP GLENWOOD

StarVista's Camp Glenwood is an intensive court-mandated program in La Honda that provides substance abuse and co-occurring mental health treatment for incarcerated boys ages 13-18. Through careful assessment and case consultation, the program offers comprehensive services that include individual, group, and multi-family counseling sessions to offer parental support, while empowering youth to take responsibility for the choices in

their lives. Camp Glenwood aims to prevent recidivism by addressing key challenges and barriers that participants will face upon re-entering their communities. Staff collaborates closely with various treatment providers, Probation Officers, lawyers, judges, and various other community stakeholders to provide the best chances for success and community re-integration after completion of the program.
