

# STAR VISTA

## Helping All Ages and Stages Through Life's Challenges

## FOSTER YOUTH EDUCATION ENRICHMENT SERVICES (FYEES)

StarVista's Foster Youth Education Enrichment Services provides one-on-one, strength-based case management and coaching services to support the academic achievement of San Mateo County foster youth from kindergarten through eighth grade.

In partnership with Daly City Peninsula Partnership and Legal Aid of San Mateo County, StarVista provides support services, educational advocacy, and

academic enrichment to foster children and youth.

**The primary goal of the program is to improve:**

- Academic performance
- Classroom behavior
- Social and relational skills
- Academic engagement

The FYEES team conducts a holistic needs assessment to determine the needs of each youth and family. StarVista then

addresses the youth's needs and provides educational support through collaboration with caregivers, social workers, education liaisons, and community partners.

### **YOUTH ELIGIBILITY:**

Currently, StarVista is receiving referrals directly from Children and Family Services for youth in an out-of-home placement within San Mateo County.
