

STAR VISTA

Helping All Ages and Stages Through Life's Challenges

FIRST CHANCE PROGRAMS

FIRST CHANCE SOBERING STATION

The Sobering Station is a 24-hour program that serves as an alternative to jail for persons arrested for driving under the influence or public intoxication. This program operates 7 days per week, 24 hours per day, 365 days per year. While clients are recovering from their intoxication, counselors complete assessments that can identify substance abuse problems and interact with the

clients in an open, non-judgmental, and empathetic manner.

FIRST CHANCE OUTPATIENT

First Chance Outpatient Services provides innovative and individualized treatment to people with substance use, and co-occurring mental health/substance use disorders. Clients receive assessments, individualized treatment plans, individual and group counseling,

and random drug and alcohol testing.

First Chance also welcomes individuals in a crisis or non-crisis situation that are not under the influence. These individuals will receive respite, an empathetic intervention, and needed referrals.
