

STAR VISTA

Helping All Ages and Stages Through Life's Challenges

EARLY CHILDHOOD COMMUNITY TEAM

With the support of the Mental Health Services Act (Prop. 63) and San Mateo County's Measure K, StarVista's Early Childhood Community Team has expanded from the Coastsides to now include Pescadero, La Honda, Daly City, South San Francisco, and Redwood City.

Our Early Childhood Community Team strives to foster healthy cognitive, emotional and social development for children prenatal through five, with a special focus on infants and children under three.

Our approach focuses on the parent/child relationship as the primary means for intervention. We also focus on child development and we strive to individualize services so that we can meet each child and family's unique needs.

Identifying difficulties early and providing families with the proper assessments and interventions can make a difference in a child's earliest years and for many years thereafter.

The following program highlights are free of charge to families and available in English or Spanish.

- Community Worker support services (home based)
- Early Childhood Consultation
- Mental Health services for children and their caregivers
- Parent Support groups
- Parent-Child Activity Groups

Funding is provided by the Mental Health Services Act (Prop. 63) & San Mateo County's Measure K.
